PROFESSIONAL SUMMARY

Business Intelligence Specialist with 8+ years turning complex data into decisions for Cargill's Ocean Transportation and MyPos fintech. Built and led Power BI, Snowflake, and Microsoft Fabric solutions spanning ~50 dashboards used by **200+ daily users**, including executive leadership, and cut manual reporting effort by 70% through self-service automation. Led and mentored a team of 10 data professionals, scaling in-house BI solutions from dev to launch, **including AI powered solutions**. Now based in Dubai and targeting senior data analytics / BI leadership roles in the UAE. **Passionate about process excellence, I build solutions people actually use.**

PROFESSIONAL EXPERIENCE

Data Analytics and Insights Lead - Cargill, Ocean Transportation

Jun 2021 – Aug 2026 · Varna, Bulgaria

- Managed, mentored, and upskilled a team of **10 data professionals** delivering business intelligence solutions across the Ocean Transportation desk.
- Designed and deployed scalable data architecture on Snowflake and Microsoft Fabric to support desk-wide reporting and **AI Data readiness**.
- Built automated data pipelines and self-service solutions that cut manual reporting effort **by up to 70% across 7 desks**, freeing up an estimated **300+ hours/week** - including Ops Support, Post Fixture Liquidation, Vessel Performance, and finance.
- Delivered **~50 Power BI dashboards** adopted by **200+ daily active users** across the desk, including executive leadership, to monitor core KPIs.
- Acted as the strategic bridge between technical teams and business units, translating complex datasets into decisions that **drove +150% in global P&L**.

Business Analyst, customer data - MyPos

Jan 2018 – Jun 2021 · Varna, Bulgaria

- Bridged technical, sales, marketing, and operations teams by translating merchant and customer account data into actionable insights, supporting cross-functional decision-making across Product, Risk, and Technical Support.
- Built and maintained BI reporting and dashboards from customer interaction and account data, surfacing trends and pain points across 3 language markets to inform product and process improvements.
- Analyzed onboarding, account, and payment data to identify recurring risk and satisfaction issues, feeding findings to internal teams to strengthen retention and account stability at a company later acquired by Advent International for €500M (2023).

Logistics & Operations Coordinator - Palais des Festivals

Jan 2016 – Dec 2017 · Cannes, France

- Coordinated large-scale logistics for major international events, from planning through teardown.
- Served as central point of contact between clients, venue operations, and internal departments to deliver event requirements.
- Supervised onsite teams and external vendors, ensuring compliance with venue regulations.

TECHNICAL & CORE STRENGTHS

- **BI & Visualization:** Power BI, DAX, Power Query, Tableau
- **Data & Cloud:** SQL, Snowflake, Microsoft Fabric, Azure, data modeling, ETL/ELT
- **Automation & Dev Tools:** Power Automate, Excel VBA, Office Scripts, Python, Git (version control, pull requests, code review)
- **Microsoft 365:** SharePoint, Power Apps, MS Forms, Copilot
